

Developing Quality Aligned Assessments

How do you know if the assessments in curriculum units are aligned to the standards they are supposed to measure? What are the steps in aligning assessments as they are developed? What supporting documents can be used? How can you audit the assessments provided by textbook series?

A quality assessment should clearly assess the chosen standard. This training will include the process for writing a quality assessment with samples as well as a process to audit the alignment of the assessments to the standards. We will also practice with Missouri Learning Standards and discuss the potential of the Moleap Blocks, Mo OER site and using technology platforms.

Join us as we explore the art of aligning assessments.

Target Audience: Curriculum Directors, Administrators, or lead teachers assigned to the duty of overseeing curriculum writing.

Time: 9:00 am - 2:00 pm (lunch break @ 11:30)
