

Let's Talk Science

The Science MLS are not new but are you sure that your district curriculum is aligned to them? Are the assessments your teachers using assessing all the dimensions or just the core knowledge? Join us as we dive into the processes that need to occur as your teachers build units of instruction, including assessments and determine quality activities.

We will examine the science MLS, the 3-dimensional standards and other great science resources. We will discuss how to ensure that science instruction is aligned to the standards, effective instructional practices, and quality assessment development. We will dive into the importance of science instruction at all levels and how to inspire critical thinking and collaboration.

Target Audience: Curriculum Directors, Administrators, or lead teachers assigned to the duty of overseeing curriculum writing.

Time: 9:00 am - 2:00 pm (lunch break @ 11:30)
