

APR Deep Dive

Are We Success Ready in Our Success Ready Measures?

The Success-Ready component of our APR only makes up 10% of the Performance portion and 6% of the Continuous Improvement area yet plays a major role in our students' futures. Join us for this hands-on, in-person workshop as we take a deep dive into YOUR district's APR data and district offerings to see how you can help improve your Success Ready measures. We will also look at specific district offerings to see how we can help prepare students to be success ready in post high school life. Attendees are being asked to bring a copy of (or have access to) your district's APR from the last three years, including any supporting documentation related to the Success Ready component.

Target Audience: Curriculum Directors, Administrators, Instructional Coaches, content teachers looking to increase student engagement in their classrooms.

Materials Needed/Interactive Level: Attendees are being asked to bring a copy of (or have access to) your district's APR from the last three years, including any supporting documentation related to the Success Ready component. Participants will want to verify they have access to student-level data within the MCDS platform. This workshop will give participants the opportunity to share their thoughts, questions, and ideas with other attendees so we can all learn together!

Time: 9:00 am - 2:00 pm (lunch break @ 11:30)

SMCAA Member Fee: \$130.00 per person

Non-Member Fee: \$160.00 per person

Please contact Al Richardson (arichardson@smcaa.org) for questions regarding this workshop; all other questions should be directed to Julie Riley (jriley@smcaa.org).
