ACT WorkKeys® And Your Data
September 18, 2026 | 12:30 PM – 3:30 PM | Jefferson City, MO

ACT

ACT WorkKeys - Career Readiness

Join us on September 18th as SMCAA hosts the next “ACT WorkKeys®” training sessions. On this day, we will be doing TWO 3-hour workshops: ACT WorkKeys Curriculum Workshop and ACT WorkKeys and Your Data. Individuals can sign up for one or both exciting workshops!

ACT® WorkKeys Curriculum

This workshop is activity-based and is designed to bring your staff up to speed in using WorkKeys Curriculum in the school setting and in helping the individual student. Activities in the workshop will have your staff working in the program quickly. You will be provided insights and examples on how to incorporate WorkKeys Curriculum into the school instructional day and in using the data to monitor your students’ progress. Schools considering this workshop should have access to WorkKeys Curriculum or be in the process of purchasing.

Note: *This workshop is designed for schools with active WorkKeys Curriculum licenses. All participants will receive guided access to the new WorkKeys Curriculum platform during the session (sandbox accounts).*

Target Audience

This workshop is ideal for:

- **Curriculum & Instruction Leaders, Instructional Coaches**
 - **Building and District Administrators**
 - **CTE and Career Pathway Teachers**
 - **School Counselors and Advisors**
 - **College and Career Readiness Coordinators**
 - **Work-Based/Real World Learning Staff**
 - **Alternative Education Instructors**
-

Learning Outcomes

- ACT WorkKeys Curriculum to better understand and implement the program.
- Create assignments (individual or group) based on knowledge and skills tested on the WorkKeys.
- Learn instructional strategies to embed WorkKeys Curriculum into the school day.

ACT® WorkKeys and Your Data

Designed for the K12 educator in mind, this workshop blends the review and analysis of your ACT WorkKeys data by individual student and at the school level. Understanding what data is available and what it is telling us is critical. Learn how to interpret your data at the individual student level and at the school level, make connections to the skills associated with each score level of the assessment. This work will use your actual data files, giving you the ability to continue this process with each following administration of the WorkKeys assessments.

Target Audience

This workshop is ideal for:

- **Curriculum & Instruction Leaders, Instructional Coaches**
 - **Building and District Administrators**
 - **CTE and Career Pathway Teachers**
 - **School Counselors and Advisors**
 - **College and Career Readiness Coordinators**
 - **Work-Based/Real World Learning Staff**
 - **Alternative Education Instructors**
-

Learning Outcomes

- Review components and Knowledge & Skills of the WorkKeys assessment.
- Access WorkKeys data reports and export functionality, including individual student and school level aggregated reports.
- Connections to the identified skills at each WorkKeys levels is a final focus of this workshop, allowing you to continue to use data to adjust instruction based on student needs.

Fee: \$200 Per person or Team Special of 3 for \$500.00
